## Supplementary Product Disclosure Statement

Issued by CSF Pty Limited, ABN 50 237 896 957, AFSL No 246664, RSE L00000307, RSE R1000597, the Trustee of Catholic Super.

This Supplementary Product Disclosure Statement provides important information related to the Pre-retirement Allocated Pension and the first year of income. It replaces the section headed **First year of income may be less** on Page 7 of the Product Disclosure Statement.

### First year of income may be less

If John invested \$350,000 in a pre-retirement allocated pension part way through a financial year, only the minimum amount of income he can receive in the first year needs to be proportioned for the remaining part of that financial year. This rule does not apply to the maximum amount he can receive.

For instance, if John invested on 1st March, the number of days remaining in the financial year would be 122. Therefore, the minimum and maximum amounts of income in John's first year would be:

<b>Minimum amount of income</b>	= \$14,000 × (122/365) = \$4,680*
<b>Maximum amount of income</b>	= \$35,000

\* Rounded to the nearest \$10.

The amount John chooses will influence how long his pre-retirement allocated pension will last.

Other than this change, the information in the Catholic Super Pension Product Disclosure Statement of 1 July 2007 continues to apply.
